Unit: FSKNUM15 Estimate, measure and calculate routine metric measurements for work

Resource: Trainer and Assessor Guide

Update: Version 1.2 updated to Version 1.3

Affected pages: Page 51

May 2019: Corrected answer in Final Assessment Part A, Solution 14 on page 51.

Use the attached pages to update the affected document.

Solution 13

The learner must have provided the following answers:

Measurement	How you would record it
5 hours	5 hrs
35 millimetres	35 mm
50 centimetres	50 cm
100 degrees	100 °C
7 kilometres	7 km

Assessor comments:

Solution 14

The learner should have provided the following answers:

Estimation of how many boxes of ice-creams I will need	7
How this was estimated	If there are 6 ice-creams in each box, 6 boxes of 6 ice-creams (36 ice-creams) would not be enough for 38 children.
The calculation used on the calculator	$38/6 = 6.33$
Is the estimation close to the answer on the calculator? Yes or No	Yes
